

DESCRIPTION

EASY-CLEAN TRAP

Trap Seal: 50mm water seal
Flow Rate: 21 litres / min
Outlet Pipe Dia: 40mm
Trap Depth Below Tray: 120mm

WASTE FITTING-ONLY (OPTIONAL) -- Inner seal is removed to create a 'waste-fitting', Waste to be connected to floor-gully trap 50 -100mm provided by plumber)

Flow Rate: 21 litres-plus / min.

INSTALLATION

Fitted to channel-drain
Standard Position: At end of drainage channel, 100mm centre off framing or custom position as requested

USE AS EASY-CLEAN TRAP

Requires periodic cleaning to remove any hair, soap, or body debris which may accumulate through normal useage. Left unattended any waste material may restrict water flow

USE AS WASTE-FITTING

Utilising a floor gully trap enhances water-flow capacity such that any hair, soap, body debris should pass through the connected floor gully trap without eventual buildup

MAINTENANCE

Do not use abrasive cleaners
Do not use solvent-based cleaning products

EASY-CLEAN TRAP
Inner-Seal inserted into waste-fitting creating Easy-Clean Trap.

WASTE FITTING
Inner-Seal removed to create Waste Fitting-only.
P or S-Trap required.
